WORK EXPERIENCE

UBS Global (Aug 2015 – Aug 2018)

Associate Director - **Remote worker based in Weehawken, NJ**

AD for Global Oracle Engineering group. The group is responsible for all aspects of DevOps automation of Oracle DBaaS environment including strategy, design, engineering, development and support at UBS worldwide. This includes infrastructure, setting up automated processes for provisioning databases, deployment of upgrades and patches, backups, Golden Gate and Standby databases, user maintenance as well as other common DBA tasks. My responsibility was to manage the effort to automate the migration of databases from our Legacy environment of thousands of Oracle 9, 10 and 11 databases on RedHat Linux and Solaris VMs and servers to our DBaaS environment of Oracle ExaData servers and ODAs. We used Oracle OEM Deployment procedures and Hewlett-packards Database and Middleware automation tools for the bulk of migration processes. We coded in Linux Shell, Python / Jython, AWK, PL/SQL as well as others.

UBS Financial (April 2012 – Aug 2015)

Lead Associate - **Weehawken, NJ and Remote**

Lead Associate and Team lead in the ServiceWorks group working mainly with Oracle Databases, Java and Python. ServiceWorks was the Wealth Management US groups in house service requests tool that handled all request types from the branches including but not limited to employee parking, client contact management, building maintenance requests, trading, HR requests, employee inquiries and more.

UBS Financial (Aug 2006 – Apr 2012)

Weehawken, NJ and Remote

Lead Associate and Team lead in the HR group working mainly with Oracle, SQL Server and MySQL Databases and Adobe ColdFusion and well as Linux Shell.

Lenox Inc (Apr 1991 – Aug 2006)

Lawrenceville, NJ

Various positions including Programmer, Programmer/Analyst, Lead Developer and Oracle engineer

EDUCATION

Middlesex College A.S. degree in Computer Science

1991–1996
